

NOW AVAILABLE DISSOLVED OXYGEN MONITORING IN BAFFLED SHAKE FLASKS

ACCURATE DO MONITORING

Convenient solution
to measure DO in
baffled shake
flasks.

BETTER DATA, BETTER DECISIONS

Unlock oxygen
dynamics to
optimize your
experiments.

SMARTER SCREENING. SMOOTHER SCALE-UP

Screen under the
right conditions and
avoid scale-up
surprises.

UNIVERSAL COMPATIBILITY

Works with
commercial and
hand-made baffled
flasks.

9 out of 10 pilot testers
believed their microbial
baffled shake flask cultures
were not **oxygen-limited**...
Guess what? They were. →

Take the guesswork out of
bioprocessing - and rely on
clear data to optimize
growth conditions and
improve **reproducibility**.
